About Company

We are NABCO

NABCO employs highly trained and experienced multilingual personnel who are conversant with the latest technical standards, capable of delivering excellence on site. NABCO takes pleasure in introducing itself as one of the leading general contracting companies in the Eastern Province, Saudi Arabia. NABCO is a 100% Saudi Arabian-owned corporation, successfully operating in the Kingdom. Our expertise spans across multiple domains, including:

We are proud to offer comprehensive IT & OT services as major services, through our specialized unit, NABCO-IT. This wing of NABCO is dedicated to providing advanced technological solutions and support, ensuring seamless operations and security across all our projects.

“We strive for excellence in every project, ensuring the highest standards of quality and efficiency.”

VISION & MISSION

A business group providing End-to-End solutions and consulting to meet the increasing demand in IT and Security Systems sector in the Kingdom of Saudi Arabia. We have positioned ourselves to meet this objective adapting highest level of standards and quality.

OUR VISION

To be acknowledged as the number one vendor by our customers to be accredited as the leading company that offers quality solutions and services by implementing best business practices.

OUR MISSION

To become the ultimate company that empowers its customers with Intelligent, Integrated, and Customer Centric technology solutions and services tailored to be mapped to their business priorities.

- » **To meet and exceed customer expectations through our quality of services**
- » **To extend our high class services**
- » **To exceed customer expectations**
- » **We thoroughly consider a number of issues that would be a concern of customers**
- » **Customer Delight is our utmost priority**

Why Choose Us?

At NABCO, we don't just offer services — we deliver transformative solutions. Here's why partnering with us is a decision that will propel your business forward:

01 Tailored Expertise:

Our solutions are meticulously customized to meet the specific needs of your organization, ensuring that every aspect of your IT infrastructure works seamlessly and efficiently.

02 Cutting-Edge Technology:

Staying ahead in the digital world requires constant innovation. We leverage the latest technologies and tools to keep your business at the forefront of industry trends, enabling you to maintain a competitive edge.

03 Proven Reliability:

With a track record of excellence, NABCO is known for delivering dependable and long-lasting solutions. We prioritize stability and performance, so you can focus on your core business without worrying about technical disruptions.

04 Unparalleled Support:

We are committed to providing ongoing support and guidance. Whether it's troubleshooting, maintenance, or upgrades, our team is always ready to assist, ensuring your operations run smoothly 24/7.

05 Scalability for Growth:

As your business evolves, so do your technology needs. Our scalable solutions are designed to grow with you, providing the flexibility you need to adapt to new challenges and opportunities.

EXECUTIVE PRESIDENT

Statement

Message from the EXECUTIVE PRESIDENT: Building Strong relationships with Our Valued Clients

Introduction: Strengthening Our Bonds

Welcome, esteemed clients! We extend our heartfelt gratitude to each and every one of you for your unwavering trust and continuous support. As the Chairman of our esteemed company, I am delighted to take this opportunity to express my sincere appreciation and share with you our vision for the future.

Our Commitment to Excellence

Embracing a Client-Centric Approach

At NABCO, we have always prioritized our clients and their needs. It is our unwavering commitment to provide you with exceptional services and deliver the highest standards of quality. Your satisfaction is the driving force behind our continuous improvement and growth.

Innovative Solutions for Your Success

In today's fast-paced and dynamic business landscape, we understand the importance of staying ahead of the curve. Our team of dedicated professionals continuously strives to innovate and develop cutting-edge solutions that cater to your evolving requirements. We believe in offering not just products and services, but comprehensive solutions that empower you to achieve your goals.

Building Lasting Partnerships

Strong and enduring relationships are the foundation of our success. We value the trust you have placed in us and are determined to nurture and strengthen our partnerships further. By actively engaging with you, we gain valuable insights that enable us to tailor our offerings to match your unique needs. Together, we can overcome challenges and unlock new opportunities.

Continuous Learning and Growth

To provide you with the best possible solutions, we emphasize continuous learning and professional growth within our organization. Our team members are encouraged to expand their knowledge, explore new areas, and refine their skills. By staying ahead of industry trends, we ensure that you receive cutting-edge expertise and unparalleled service.

Conclusion: Moving Forward Together

Sultan Khuwaitem Al Maliki

Professional Team

M.Fakhruddin Ali Ahmad

Project Director

M. Fakhruddin Ali Ahmad is the Project Director at NABCO, leading the organization's project execution with a strong focus on quality, efficiency, and innovation. With extensive experience in handling complex infrastructure and technology-driven projects, he plays a vital role in ensuring the successful delivery of NABCO's diverse service portfolio.

He oversees the complete project lifecycle, including planning, resource management, execution, risk assessment, and final delivery, ensuring that every project meets the highest standards of performance and client expectations. His expertise spans across telecom infrastructure, network solutions, civil works, fiber deployment, and IT systems integration, making him a key driver of NABCO's operational excellence.

Mr. Ahmad is known for his strategic leadership, attention to detail, and ability to manage multi-disciplinary teams across large-scale projects. He ensures effective collaboration between internal teams, vendors, and clients, maintaining transparency and efficiency throughout the project process.

With a strong commitment to safety standards, technical precision, and timely execution, he consistently delivers projects that align with industry best practices and future-ready technologies. His leadership contributes significantly to NABCO's reputation for reliability and excellence in infrastructure and IT solutions.

Driven by a vision of continuous improvement and innovation, Mr. Ahmad plays a crucial role in strengthening NABCO's position as a trusted partner for integrated engineering and technology services.

Professional Team

IT Head - Services, Sales & Business Management

M. Danish Ahmed

The role of our IT Head in Services, Sales, and Business Management at NABCO exemplifies a modern approach to IT leadership. From seamless service delivery to innovative sales strategies and agile business management, NABCO continues to set the bar for excellence. Trust NABCO for all your IT needs, where dedication, expertise, and results converge for your business success.

Managing IT services demands more than just technical knowledge. It requires a clear strategy for aligning technology with business objectives. Our IT Head at NABCO brings this expertise to the forefront, ensuring seamless service delivery, system optimization, and a focus on performance.

IT leadership that understands sales as a core business component is essential. Our IT Head plays a critical role in boosting sales through technology integration. By aligning IT systems with sales goals, our team enhances customer engagement, leads generation, and client conversion.

Professional Team

M. Mojahidul Islam

MANAGER - Business Development and Operations (IT Services, Project Control & Sales)

M. Mojahidul Islam is a seasoned Manager at NABCO, specializing in Business Development and Operations across IT Services, Project Control, and Sales. With a keen eye for strategic growth and operational excellence, Mojahidul drives impactful initiatives that foster business expansion and enhance service delivery.

Experience -

Expanding IT Services with Strategic Business Development: Leading the charge in broadening NABCO's service offerings through strategic business development efforts. Identifies new market opportunities and implements growth strategies that align with the company's vision.

OUR SERVICE

Network Infra (Wired & Wireless)

We provide reliable and scalable network infrastructure solutions designed to support modern business operations. Our services include the design, installation, and maintenance of both wired and wireless networks to ensure seamless connectivity across offices, facilities, and industrial environments.

We implement structured cabling systems, high-quality switches, routers, and access points to build a strong and scalable network foundation. Our wired network solutions ensure stable and high-speed data transmission, while our wireless solutions deliver flexible and secure connectivity for employees, devices, and smart systems across offices, commercial buildings, and industrial facilities.

Our team carefully analyzes each client's requirements to design customized network architectures that enhance productivity, improve collaboration, and support business growth. From LAN and WAN deployment, structured cabling, Wi-Fi coverage planning, and network security configuration to performance monitoring and troubleshooting, we ensure your network infrastructure operates efficiently at all times.

With NABCO's expertise, organizations benefit from a future-ready network environment that supports digital transformation, cloud applications, IoT devices, and modern business technologies while maintaining the highest standards of reliability.

OUR SERVICE

Physical Security System

Safeguarding Your Business and Assets with NABCo

In today's rapidly evolving security landscape, protecting businesses, personnel, and assets from physical threats is more critical than ever. NABCo's Physical Security Solution delivers advanced, comprehensive security systems tailored to meet the unique needs of modern organizations. From access control and surveillance to on-site security management, our solutions are built to detect, deter, and respond to potential threats, ensuring your business's continuity and the safety of everyone involved.

Partner with NABCo for Your Physical Security Needs

With NABCo's Physical Security Solution, you gain access to a partner that prioritizes your safety and peace of mind. Let us help you create a secure environment tailored to your specific needs.

Key Features of Our Physical Security Solution

1. Comprehensive Access Control Systems
2. 24/7 Surveillance and Monitoring
3. Intrusion Detection and Alarm Systems
4. Integrated Security Management System (SMS)
5. Customized Security Solutions for Diverse Industries

OUR SERVICE

Telecom OSP Work

NABCO provides professional Telecom OSP (Outside Plant) services that support the development and maintenance of reliable external telecommunications infrastructure. Our team specializes in the planning, installation, and management of telecom networks that operate outside buildings, ensuring stable connectivity across cities, industrial zones, and commercial facilities.

Our OSP solutions include fiber optic cable laying, duct installation, trenching, cable routing, splicing, testing, and network commissioning. We follow industry standards and advanced deployment techniques to ensure high-performance communication networks with long-term durability and minimal signal loss.

NABCO's experienced technicians handle complete OSP projects, from network route surveys and design to installation and ongoing maintenance. We work with telecom operators, enterprises, and infrastructure developers to build robust networks that support modern communication technologies such as high-speed internet, data transmission, and large-scale connectivity.

With a focus on quality, safety, and efficiency, our Telecom OSP services ensure that organizations benefit from strong and scalable network infrastructure capable of supporting future expansion and evolving communication needs.

OUR SERVICE

Civil Work

NABCO offers comprehensive civil work services to support the development of reliable infrastructure for commercial, industrial, and telecom projects. Our team specializes in executing a wide range of civil construction activities with a strong focus on quality, safety, and durability.

Our civil work services include site preparation, excavation, trenching, foundation work, concrete structures, ducting, and infrastructure support required for telecom, networking, and utility installations. We ensure that all construction activities are carried out according to engineering standards and project specifications to deliver strong and long-lasting structures.

With skilled professionals and modern equipment, NABCO manages projects efficiently from planning and groundwork to execution and finishing. We work closely with clients to ensure that every project is completed on time while maintaining the highest standards of workmanship and structural integrity.

Our civil work solutions provide a solid foundation for various infrastructure developments, enabling smooth integration with telecom, network, and utility systems while supporting future expansion and operational reliability.

OUR SERVICE

Fencing Work

NABCO provides professional fencing solutions designed to enhance the security, safety, and boundary protection of residential, commercial, industrial, and infrastructure sites. Our fencing services are tailored to meet the specific needs of each project, ensuring strong and long-lasting perimeter protection.

We specialize in the installation of chain-link fencing, barbed wire fencing, security fencing, boundary walls, and customized protective barriers for various types of properties and facilities. Our team ensures proper site assessment, accurate measurements, and high-quality materials to deliver durable and reliable fencing structures.

NABCO's fencing solutions are widely used for industrial areas, telecom sites, warehouses, construction sites, agricultural land, and utility infrastructure, helping clients safeguard their assets and control site access effectively.

With a focus on quality workmanship, strong materials, and precise installation, our fencing services provide dependable security while maintaining a clean and professional boundary structure for every project.

OUR SERVICE

Azure Security

NABCO provides advanced Azure Security solutions to help organizations protect their cloud infrastructure, applications, and data within the Microsoft Azure environment. Our services focus on implementing robust security frameworks that safeguard business operations from cyber threats while ensuring compliance with industry standards.

We assist businesses in securing their cloud workloads, virtual machines, networks, and applications by configuring advanced Azure security tools and best practices. Our services include identity and access management, threat detection, data protection, network security configuration, and continuous monitoring to ensure a secure and resilient cloud environment.

NABCO also helps organizations implement security policies, encryption protocols, firewall configurations, and vulnerability assessments to reduce risks and strengthen their cloud security posture. Our team ensures that all security measures are aligned with modern cybersecurity standards to protect sensitive business data and critical digital assets.

With NABCO's expertise in Azure cloud security, businesses can confidently operate in the cloud while maintaining high levels of protection, compliance, and operational continuity.

OUR SERVICE

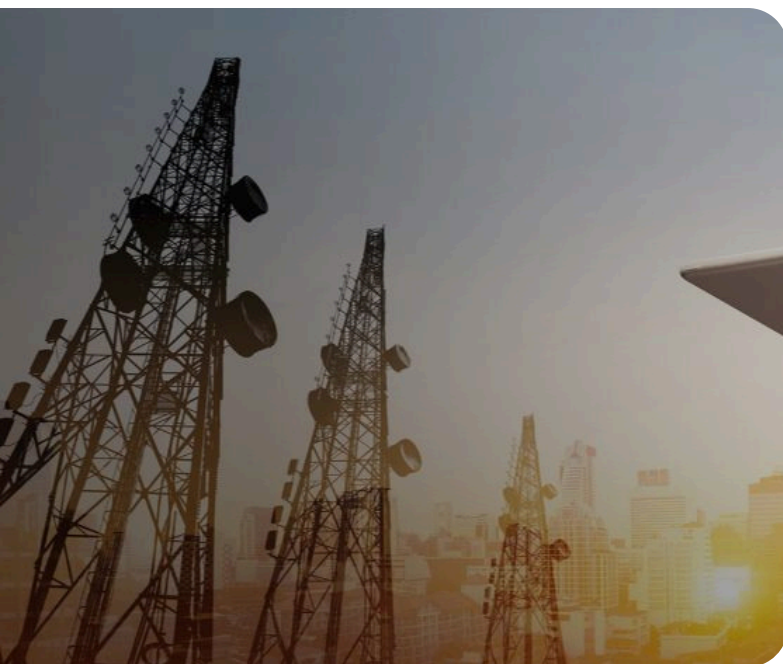

Telecom **ISP Work**

NABCO provides comprehensive Telecom ISP (Internet Service Provider) solutions to support the development, deployment, and maintenance of high-quality internet and communication networks. Our services are designed to help telecom operators and service providers deliver fast, reliable, and uninterrupted connectivity to businesses and communities.

Our ISP services include network planning, fiber optic deployment, equipment installation, bandwidth management, and network testing to ensure efficient and stable internet services. We work with advanced telecom technologies to build strong network infrastructure that supports high-speed data transmission and large-scale connectivity.

NABCO also assists in last-mile connectivity, network expansion, troubleshooting, and system upgrades, ensuring smooth service delivery and improved user experience. Our team follows industry best practices to maintain network reliability, minimize downtime, and optimize overall performance.

With NABCO's expertise in Telecom ISP operations, organizations can establish scalable and future-ready internet networks capable of supporting growing digital demands, smart technologies, and modern communication systems.

OUR SERVICES

Telephone Solutions

NABCO provides reliable and scalable telephone solutions designed to enhance business communication and ensure seamless connectivity across organizations. Our services include the setup, integration, and maintenance of modern telephony systems tailored to meet the communication needs of businesses of all sizes.

We specialize in IP telephony (VoIP), PBX systems, intercom solutions, call routing, and unified communication platforms, enabling clear, efficient, and cost-effective voice communication. Our solutions are designed to improve internal collaboration as well as external customer interactions.

NABCO ensures smooth deployment of telephone systems with features such as call forwarding, auto-attendant, voicemail, conference calling, and remote accessibility, allowing businesses to stay connected anytime and anywhere.

With a focus on performance, scalability, and ease of use, our telephone solutions help organizations streamline communication processes, reduce operational costs, and improve overall productivity through advanced and reliable voice systems.

OUR SERVICE

Low Current/High Current

NABCO provides specialized Low Current and High Current solutions to support a wide range of electrical and electronic infrastructure requirements for commercial, industrial, and infrastructure projects.

Our Low Current systems include solutions that operate on minimal electrical flow, such as CCTV surveillance, access control systems, fire alarm systems, structured cabling, data networks, intercoms, and building management systems (BMS). These systems are essential for communication, monitoring, and security, ensuring smooth and safe operations within modern facilities.

On the other hand, our High Current solutions focus on power-intensive electrical systems, including power distribution, panel installation, cabling, transformers, generators, and electrical equipment setup. We ensure safe and efficient handling of high-load electrical requirements to support heavy machinery, industrial operations, and large-scale facilities.

NABCO's expert team ensures proper design, installation, and maintenance of both low and high current systems while adhering to safety standards and industry regulations. Our solutions are built to deliver reliability, efficiency, and long-term performance, making them ideal for integrated infrastructure and energy management needs.

OUR SERVICE

Network Security

NABCO provides advanced network security solutions to protect organizations from cyber threats and ensure the safety of their digital infrastructure. Our services are designed to secure networks, systems, and data against unauthorized access, attacks, and vulnerabilities.

We implement robust security measures including firewall configuration, intrusion detection and prevention systems (IDS/IPS), VPN setup, endpoint protection, and secure network architecture design. These solutions help safeguard sensitive information while maintaining smooth and uninterrupted network operations.

Our team also conducts risk assessments, vulnerability testing, and continuous monitoring to identify potential threats and respond proactively. We ensure that all security systems are regularly updated and aligned with the latest cybersecurity standards and best practices.

With NABCO's network security expertise, businesses can operate with confidence, knowing their data, applications, and communication systems are protected by reliable and scalable security solutions.

OUR SERVICE

Email Migration & Security

NABCO provides secure and efficient Email Migration & Security solutions to help organizations seamlessly transition their email systems while ensuring complete data protection and business continuity.

Our email migration services include data transfer, mailbox migration, server configuration, and platform upgrades with minimal downtime and zero data loss. Whether moving to cloud-based platforms or upgrading existing systems, we ensure a smooth and hassle-free migration process tailored to your business needs.

In addition to migration, we implement advanced email security measures such as spam filtering, anti-phishing protection, email encryption, threat detection, and secure access controls. These safeguards protect organizations from cyber threats, unauthorized access, and data breaches.

NABCO also ensures proper backup solutions, compliance configurations, and continuous monitoring to maintain the integrity and availability of email communications.

With NABCO's expertise, businesses can benefit from a secure, reliable, and modern email environment that enhances communication efficiency while protecting sensitive information.

OUR **SERVICE**

Small to Large **Billing & ERP** Solution

Comprehensive Small to Large Billing & ERP Solutions by NABCo

NABCo specializes in delivering cutting-edge billing and ERP solutions tailored to meet the unique needs of businesses of all sizes. Whether you're a small business or a large enterprise, NABCo ensures seamless integration and robust functionality to support your growth.

NABCo's solutions are designed to simplify complexities, enhance accuracy, and optimize resource utilization. Here's why businesses trust us:

How NABCo Supports Businesses of All Sizes

Our approach to ERP and billing solutions accommodates diverse industries and business scales.

- For Small Businesses
- For Medium-Sized Enterprises
- For Large Enterprises

- Cost Savings:
- Future-Proof Technology

Industries We Serve

- ◆ MALL & FACILITIES
- ◆ MANUFACTURING & PACKAGING
- ◆ CONSTRUCTION & SCAFFOLDING
- ◆ GEMS & JEWELRY
- ◆ WAREHOUSE & STORE
- ◆ HIGH-TECH & ELECTRONIC
- ◆ TRADING & DISTRIBUTION
- ◆ OIL & GAS

ERP Solutions That Drive Success

1. Streamlined Operations
2. Data-Driven Insights
3. Custom Modules
4. Cloud-Based Systems

OUR SERVICE

AI & Security Solutions

Our AI & Security Solutions combine advanced technologies with intelligent automation to protect your business, infrastructure, and digital assets. We deliver smart, scalable, and proactive security systems designed to detect, analyze, and respond to threats in real time.

With the integration of Artificial Intelligence, our solutions go beyond traditional security by enabling predictive analysis, automated monitoring, and enhanced decision-making capabilities.

KEY FEATURES & CAPABILITIES

AI-Powered Surveillance

Smart CCTV systems with facial recognition, motion detection, and behavior analysis to ensure 24/7 intelligent monitoring.

Threat Detection & Prevention

Advanced algorithms identify potential risks and security breaches before they escalate, ensuring proactive protection.

Access Control Systems

Secure your premises with biometric authentication, smart cards, and AI-enabled access

OUR SERVICE

VPN & RDP Solutions

Our VPN & RDP Solutions provide secure, reliable, and seamless remote access to your business systems from anywhere in the world. Designed for modern organizations, these solutions ensure data privacy, safe connectivity, and uninterrupted workflow for remote teams and distributed operations.

We help businesses establish encrypted communication channels and controlled remote desktop access, enabling employees to work efficiently while maintaining the highest level of security.

Key Features & Capabilities

Secure VPN Connectivity

Establish encrypted tunnels to protect data transmission across public and private networks, ensuring complete privacy and security.

Remote Desktop Access (RDP)

Access office systems, applications, and files remotely with full control, just like working from your physical workplace.

Multi-User Access Management

Enable multiple users to connect securely with role-based access control and permissions.

Contact us today to start your journey toward unparalleled online success

OUR SERVICE

Web Development

NABCO provides professional web development solutions to help businesses establish a strong and impactful online presence. We design and develop modern, responsive, and high-performing websites tailored to meet the unique goals of each organization.

Our services include custom website development, UI/UX design, front-end and back-end development, e-commerce solutions, and web application development. We ensure that every website is visually appealing, user-friendly, and optimized for performance across all devices, including desktops, tablets, and smartphones.

NABCO focuses on creating websites that not only look great but also deliver results by incorporating SEO-friendly structure, fast loading speeds, secure architecture, and seamless navigation. We work closely with clients to understand their brand identity and transform their ideas into engaging digital experiences.

OUR SERVICE

SEO / SMM / SME (Complete Solutions)

NABCO offers complete digital marketing solutions covering SEO (Search Engine Optimization), SMM (Social Media Marketing), and SME-focused strategies to help businesses grow their online presence and reach the right audience effectively.

Our SEO services focus on improving website visibility on search engines through keyword optimization, on-page and off-page SEO, technical improvements, and content strategies. This helps businesses rank higher, attract organic traffic, and generate quality leads.

With our SMM solutions, we manage and optimize your presence across major social media platforms by creating engaging content, targeted campaigns, and brand-focused strategies. We help businesses build strong customer relationships, increase engagement, and boost brand awareness.

For SMEs (Small & Medium Enterprises), we provide customized digital strategies that align with business goals and budgets. Our approach ensures maximum ROI by combining the right mix of SEO, social media marketing, and performance-driven campaigns.

OUR SERVICE

Cloud Security

NABCO provides advanced cloud security solutions to protect business data, applications, and infrastructure hosted on cloud platforms. Our services are designed to safeguard organizations from cyber threats while ensuring secure and compliant cloud operations.

We implement robust security measures including data encryption, identity and access management (IAM), secure configurations, firewall setup, and threat detection systems to protect cloud environments from unauthorized access and potential breaches.

Our team performs risk assessments, vulnerability management, and continuous monitoring to identify and mitigate security risks in real time. We also ensure proper backup, disaster recovery planning, and compliance implementation to maintain data integrity and business continuity.

NABCO supports secure deployments across public, private, and hybrid cloud environments, helping businesses confidently adopt cloud technologies without compromising on security.

OUR SERVICE

IT AMC SERVICES

NABCO provides reliable and cost-effective IT AMC (Annual Maintenance Contract) services to ensure the smooth and uninterrupted operation of your IT infrastructure. Our AMC solutions are designed to minimize downtime, enhance system performance, and extend the lifespan of your IT assets.

Our services include regular system maintenance, hardware and software support, network monitoring, troubleshooting, updates, and preventive maintenance. We proactively identify and resolve issues before they impact business operations, ensuring maximum efficiency and reliability.

NABCO offers flexible AMC plans tailored to your business needs, covering servers, desktops, laptops, networking equipment, and other IT systems. Our dedicated support team ensures quick response times and on-site or remote assistance whenever required.

We also provide system optimization, security updates, data backup support, and performance monitoring as part of our comprehensive maintenance approach.

OUR SERVICE

Firewall Support

NABCO provides comprehensive firewall support services to protect your network from unauthorized access, cyber threats, and malicious activities. Our solutions are designed to ensure a secure and well-monitored network environment for businesses of all sizes.

We specialize in firewall installation, configuration, and management, ensuring that your network is protected with properly defined security rules and policies. Our team works with both hardware and software firewalls to create strong defense layers against external and internal threats.

Our services include firewall monitoring, threat detection, rule optimization, firmware updates, and performance tuning to keep your security system up to date and functioning efficiently. We also conduct regular audits to identify vulnerabilities and strengthen your network protection.

NABCO ensures seamless integration of firewall systems with your existing IT infrastructure, minimizing risks while maintaining smooth network performance.

OUR SERVICE

Fire Fighting

NABCO provides comprehensive fire fighting solutions designed to ensure the safety of people, property, and critical infrastructure. Our services focus on the design, installation, and maintenance of advanced fire protection systems that help prevent, detect, and control fire hazards effectively.

We offer a wide range of solutions including fire hydrant systems, sprinkler systems, fire extinguishers, fire alarm integration, and emergency response systems. Our team ensures that all installations are carried out in compliance with safety standards and regulatory requirements.

NABCO conducts detailed site assessments, risk analysis, and system planning to deliver customized fire protection solutions based on the specific needs of each project. We also provide regular inspection, testing, and maintenance services to ensure that all fire safety systems remain fully operational at all times.

With a strong focus on safety, reliability, and rapid response, NABCO's fire fighting systems help organizations minimize risks, protect assets, and ensure a safe working environment.

OUR SERVICE

Server Solutions

NABCO provides robust and scalable server solutions designed to support the growing data and application needs of modern businesses. Our services focus on delivering high-performance, secure, and reliable server infrastructure for seamless business operations.

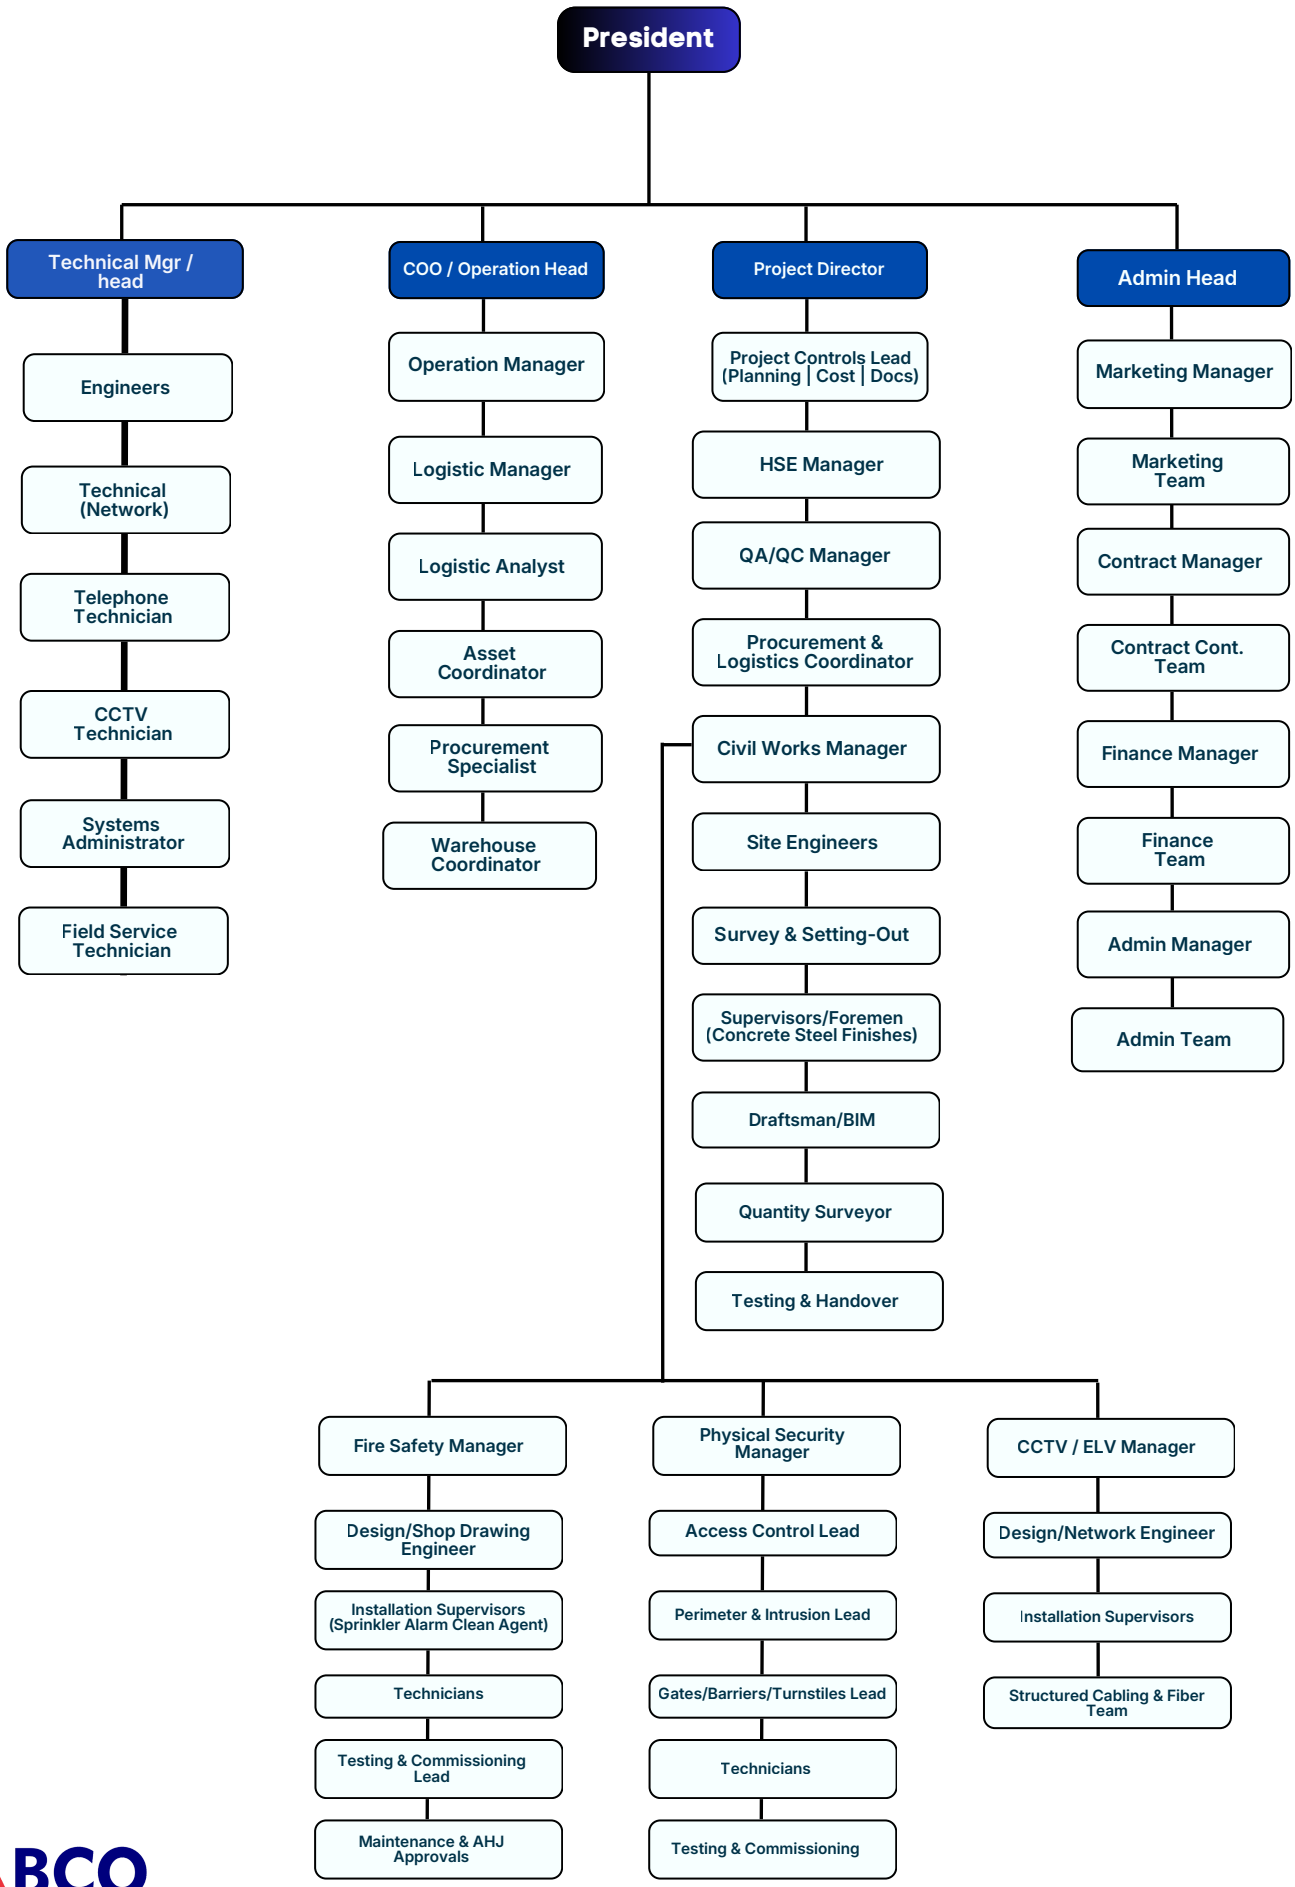

We offer end-to-end solutions including server setup, configuration, virtualization, storage management, and server migration. Whether on-premises or cloud-based, our team ensures that your server environment is optimized for performance, availability, and security.

NABCO also provides server monitoring, maintenance, backup solutions, and disaster recovery planning to protect critical business data and ensure business continuity. Our experts implement best practices to minimize downtime and enhance system efficiency.

With customized server solutions tailored to your business requirements, NABCO enables organizations to handle workloads efficiently, improve data management, and support future growth.
